

It's A Digital World. Engage Securely.

Delivering Digital Risk Protection at Scale

As the industry leader in Digital Risk Protection, ZeroFOX is your one-stop-shop for complete visibility and protection of your digital footprint. We analyze billions of data elements across hundreds of sources. We identify and triage threats for you and take remediation action on your behalf. Our AI and ML technology enables advanced analysis at scale and provide accurate alerts on the threats that matter most to your organization.

ZeroFOX's team of experts curate global threat intelligence to add context and enrich understanding of threats you face. But we don't stop there. Our managed services provide you with 24x7 operational support, threat research, and cost-effective remediation at unprecedented scale.

ZeroFOX Platform and ZeroFOX Alpha Team 12 Month Activity

A Digital World Means Digital Risk

Business today exists online. From customer engagement on social media and mobile apps, employee collaboration with email and Slack, and online shopping via web marketplaces, business has gone digital. But these interactions aren't without risks.

Monitoring data sources across social media, surface, deep and dark web, the ZeroFOX Platform identifies and remediates threats such as targeted phishing, credential compromise, account hacking, impersonations, physical threats of violence and more.

1,813,637

Physical Violence and Travel Threats

204,516

* detected attacks from May 2018 to May 2019 across 300+ customers

Disrupting The Digital Cyber Kill Chain

Cyber attackers deploy both familiar and new tactics to exploit your digital presence outside the firewall.

A comprehensive approach to Digital Risk Protection requires countermeasures at every stage of the modern cyber kill chain — to provide early warning, real-time detection, and rapid remediation that allow your organization to remain agile and steadfast in protecting what matters most, all while ensuring attackers don't gain a foothold, meet a strong resistance and move on to softer targets.

The ZeroFOX Platform

ZeroFOX employs powerful technology at every step along the kill chain to give you 360 degree visibility into your digital footprint, early detection of threats before they manifest into serious problems, and control of your digital assets to ensure your data and reputation remain unharmed.

About ZeroFOX

ZeroFOX, the market leader in digital visibility and protection, safeguards modern organizations from dynamic security, brand and physical risks across social, mobile, web and collaboration platforms. Using diverse data sources and artificial intelligence-based analysis, the ZeroFOX Platform identifies and remediates targeted phishing attacks, credential compromise, data exfiltration, brand hijacking, executive and location threats and more. The patented ZeroFOX SaaS technology processes and protects millions of posts, messages and accounts daily across the social and digital landscape, spanning LinkedIn, Facebook, Slack, Twitter, Instagram, Pastebin, YouTube, mobile app stores, the deep & dark web, domains and more.
